

METAL FABRICATION, ASSEMBLY, AND RAPID PROTOTYPING.

Beacon is a builder-led contract manufacturer in Detroit delivering metal fabrication, assembly, and rapid prototyping — from one-off prototypes to repeatable short runs and full production. **Bring us a problem.**

CORE CAPABILITIES Fabrication · Assembly · Prototyping

01 · FAB

FABRICATION

Cutting, forming, and welding for metal parts and structures.

- **Laser cutting** — tube + flat
- **Forming** — brake press, tube bending, punch & press
- **Welding** — MIG / TIG / laser + robotic
- **Short runs** — jigs & fixtures for repeatability

02 · ASM

ASSEMBLY

Kitting, sub-assembly, full builds — and everything in between.

- Kitting + sub-assembly + final assembly
- Complete build-ups with CAD / 3xD support
- Torque & fastener standards · EOL test
- Quality checks + rework when needed

03 · PROTO

PROTOTYPING & DIGIFAB

Fast prototypes and fixtures, CAD to part.

- **3D printing** — FDM, SLA, SLS (EOS)
- Quick jigs, check-fixtures, POCs, mockups
- Same-week iteration on form, fit, function

WAREHOUSING & LOGISTICS Products in, products out — without the chaos.

ONE ROOF. END TO END.

Detroit · 2050 15th St

- **Receiving, inventory, and part management**
- **Parcel + freight** — including no-box, roll-on / roll-off
- **Flexible storage** on the floor

HAVE A PART, KIT, OR ASSEMBLY IN MIND?

Send a print, a CAD file, or a napkin sketch.
 We'll quote, prototype, and put it on a line.
